

Dear Human Resources of Apple,

I'm writing to apply for the position of the AI/ML - Intern (Software Engineering).

I had the opportunity to work with different people as a team. I worked with lots of teams. I believe that I am a good team player.

I am curious about technology, programming, and computers thus I love to learn new information about these topics. I am trying to improve my skills about computers and programming.

Currently, I am working on Machine Learning, Deep Learning, Computer Vision, Web Design and Data Science.

We are all hearing the global success of the Apple in our daily lives, it is the one of the fastest growing companies and working in a global, and I think growing companies give a remarkable experience to its employees. As I see so far, your environment is amazing. Therefore, I believe working at Apple will give me an incredible experience. I believe I can help Apple to reach more higher levels with my deep learning and machine learning skills. Also, I am currently taking Data Science course of my department, thus I can help the teams with my big data knowledge. My algorithm and data structures knowledge can help both back-end and data engineering teams. Finally, I love Apple, I use its products in my daily life, I love my field, so I'm very motivated to be a part of Apple. I think motivation is the key point of success. Also, I'm open to improve myself as always, and I believe I will learn so much at Apple.

I believe I satisfy to your requirements of your internship. I am full of motivation to work at Apple. Thank you for your time and consideration. I hope to hear from you soon.

Best regards,

Mert DOĞRAMACI
